## COMPANY PROFILE

### A. THE COMPANY AND ITS OPERATION

*ULTRACOTE PAINTS & COATINGS CORPORATION is a company engaged in the manufacturing and marketing of ULTRACOTE paints, protective coatings, acid resistant, chemical resistant and heavy duty floor coatings and allied corrosion resistant materials. ULTRACOTE as it is popularly known is also in a contracting business but on a limited scale because in some cases, it is also doing the sand blasting and the application of paint in buildings, steel structures, tanks and marine vessel. ULTRACOTE serves the requirements of petroleum, mining, pulp and paper, smelters, fertilizers, marine and other related industrial and commercial establishments.*

*Raw materials for the manufacture of paints and coatings, floor toppings and grouts, are being imported from Europe, United States, Japan and worldwide source with warehousing and stocks from Singapore and Hongkong. Imported raw materials are bought from local importers with exclusive distributor ship from their foreign principals like JJ Degussa, Pacific Resins, Bayer Philippines, BASF Phils., Transworld Trading, Air Products by Chemwealth Inc., Imperial Chemicals Inc., to name a few.*

*The ULTRACOTE PAINTS & COATINGS CORPORATION was organized on July 11, 1991 by Mr. DANILO O. TUAZON and his corporate partners. However, the ULTRACOTE brand and product was being used, manufactured, marketed and patented since 1986 by ULTRACOTE PAINTS & COATINGS Corp. sister company TECHNO DEVELOPMENT & CHEMICAL Corp. In 1991 upon ULTRACOTE establishment took over the manufacturing and TECHNO do the sales and marketing for a better services and faster address to the customers. After long truthful and successful years of partnership of ULTRACOTE and TECHNO, they decided to merge as one banner to carry the product and manufacture due to stiffer competition in the market. By January 1, 2009, ULTRACOTE PAINT & COATING Corp. finally get the green light to forwards its operation and business to customers and took over all the clients of TECHNO on the previous years.*

*Likewise, distributorship of testing g equipment ELCOMETER from Manchester England is now carried also by ULTRACOTE.*
